Dominik Majcherczyk

Web Engineer

Portfolio - dominik-majcherczyk.com

ABOUT

I am experienced Web Developer specializing in building modern and scalable web and mobile application. In addition, I'm proficient in AI solutions using LangChain, so I'm able to provide complete applications for current time measures.

I recently completed my master's degree in Computer Science in 2023. Since 2020, I have the pleasure of gaining commercial experience, which has significantly expanded my portfolio with dozens of smaller projects, startup ventures, as well as involvement in large corporate projects. Apart from programming, I like to spend my free time painting miniatures or practicing fencing.

WORK EXPERIENCE

JohnCube | Software Engineer (React)

JUN 2021 – Present

Developing software according to customer requirements, creating applications for startups and internal B2B application.

Notable projects:

Viato - Comprehensive hotel management system enabling top-down oversight of hotel instances created on other platforms, coopting with German client.

VetApp - Animal diagnosis application with modules such as video calls, AI diagnosis, doctor and patient dashboard.

Music&More | Javascript Teacher

JAN 2020 – JUN 2020

Teaching elementary school students the basics of Javascript programming.

Massive Pixel Creation | QA

2020

- Migrating blogs and other content from an old application to a new one.
- Correcting the appearance of existing pages written in React. Testing and reporting bugs of the newly created application.

IBM | Intern

2018

Participation in the software distribution process (preparation and coding of software packages - creating distribution tasks).

I consent to the processing of my personal data for the purpose of recruitment for the position I am applying for.
